## 20 reasons to buy a "Duster" air cleaning machine ?

### The Portable "Duster" :

1. efficiently removes airborne dust without having to exhaust it.
2. doesn't exhaust your heated air
3. doesn't exhaust your air-conditioned air
4. pushes dust down and captures this dust at floor level.
5. is very quiet and runs on 110 V. electricity.
6. has a 50 foot cord and roller blade wheels.
7. has very "high tech filters" that can be vacuumed cleaned, or blown out with compressed air.
8. captures dust down to 0.3 microns
9. pumps extremely clean air into your shop all day long .
10. removes toxic fumes, odors, and V.O.C.'s
11. arrives assembled, ready to plug in and use.
12. is engineered to run 24 / 7 .
13. is perfect to create a clean room
14. operates well in small rooms or huge rooms
15. is available on your doorstep within 10 business days.
16. is used when sanding or painting.
17. is used in multiples in very large facilities, generally with several machines on each side of the containment area.
18. shoots air against the ceiling and pushes contaminated air down and sucks the particulate into it's filters.
19. is the economic answer for being compliant .
20. is great relief for everyone with allergies or asthma, or any other respiratory difficulties.
