Alcatraz ModulBox Inside Water Surface Dust Collector

The Alcatraz Modulbox solves the problem connected with harmful silica dust produced while working with marble and granite. Here's how it works:

dust-filled air is taken in by the Modulbox's internal fans, and then it is filtered through thin water surfaces; the dust becomes heavy because of the absorbed water, and then falls into the basin, located underneath the unit, completely eliminating all of the dust.

- Easy to clean due to the removable trays
- Easy to service
- Made from 100% stainless steel

Power: 4.2HP - 8HP

Suction: 15,000 - 25,000 m³/h

Length: 9'10" - 13'1"

Height: 7'5"

Width: 3'3"

Available Wet or Dry.

282 Orenda Rd. West, Brampton, ON, L6T 4X6
