## **3 HEAD LSJ 600 3R WIRE BRUSH MACHINE**

📍 282 Orenda Road, Brampton, ON, L6T 4X6

☎ 800.386.5222

🌐 [www.taurusraco.com](http://www.taurusraco.com)

## FEATURES »

The Wire Brush Machine is primarily utilized for enhancing the surface of various materials such as solid wood panels, flooring, and grooves. It effectively brushes the surface to create a textured, natural wood grain appearance, highlighting the main and secondary patterns. This process enhances the wood's visual appeal and makes subsequent processing more prominent.

Its applications include embossed flooring, textured surface treatments for furniture boards, decorative plate processing, wood veneer treatments, and straight surface processing for wood-plastic composite boards, among others.

### Features:

1. Working width of belt: 600 mm
2. Actual processing thickness: 0.3 - 80 mm
3. The lower supporting roller or belt feeding mode, feed speed can be adjusted
4. Feed table structure of multiple choice, the height can be accurately lifting or remain unchanged
5. 140 mm or 5.5" port per head
